Morning Cable Report

(Continued from Page One.)

BOSTON, March 25.—The struggle between the mill operators and their employees has ended. One of the first results of the closing of the hostilities at Lawrence will be the return of the children of the strikers, who were sent away from home to escape starvation.

JIMINEZ, Mexico, March 25.—After a fight lasting from early yesterday morning until late last night four thousand rebels have succeeded in cooping up two thousand federals in the little town of Escaton. Both sides lost heavily in the fighting.

The rebels loaded several crates of dynamite upon a locomotive of the Mexican Central Railroad and started this against an armored train. The explosion killed sixty of the federals. General Salas was among those badly wounded.

WASHINGTON, March 25.—Captain Robert Wynne, formerly a captain in the United States Marines, died here yesterday. He had been a sufferer with tuberculosis for years.

WASHINGTON, March 25.—Dispatches from Ichang, China, announce that Robert Hicks, a mining expert, of Wisconsin, has been murdered by pirates. He was accompanied by two companions who barely escaped with their lives. An expedition has been formed to go after the body.

WASHINGTON, March 25.—The Inter-State Commerce Commission has decided that if a railroad shall give a low rate on certain classes of freight wholly within the lines of a State, it shall, if the conditions are similar, grant the same rate between interstate points. The vote was four to three on the opinion.

CHICAGO, March 25.—Dean Sumner of the cathedral of Saint Peter and Saint Paul has announced that after Easter no marriages will be performed in the cathedral unless the applicants can show certificates from reputable doctors that they are normal physically and mentally.

INDIANAPOLIS, March 25.—The complete unofficial returns of the State primary held here give President Taft a majority of the delegates. The count has not yet been completed.

BERLIN, March 25.—It was officially announced here last night that the strike in the coal district of Waldburg, called in sympathy with the miners of Great Britain, has been called off.

LOS ANGELES, March 24.—Four Chinese, including the secretary of the six companies in San Francisco, have been found guilty of smuggling Chinese into the United States through Mexico, after two years of prosecution.

MOUNTAINTY, Virginia, March 24.—State militia have surrounded the three Aliens, leaders of the gang of moonshiners who massacred the Hillville judge and three others.

PHOENIX, Arizona, March 24.—State ownership of big industries and governmental development of natural resources, together with the privilege of direct sale to the people, is provided in a bill introduced in the Arizona senate.

FORT SMITH, Arkansas, March 24.—A mob removed an unidentified negro from the county jail last evening and hanged him. He was accused of shooting a deputy.

MILWAUKEE, Wisconsin, March 24.—Woodrow Wilson has invaded Senator La Follette's State, beginning a speaking tour in Milwaukee.

PORTLAND, Maine, March 24.—In an address delivered here Theodore Roosevelt declared that President Taft has demonstrated by a long series of official acts and utterances that he does not consider the people of the United States capable of governing themselves.

WASHINGTON, March 24.—Senator La Follette will begin his western campaign tour in Nebraska, ending it in Oregon toward the last of April.

HELENA, Montana, March 24.—Taft has been endorsed by the Republican State convention of Montana. After a fiery controversy the presidential primary was defeated.

CHINESE OF LAHAINA.

(Continued from Page Nine.)
 people in Lahaina business and social circles.

Herbert Wade, son of the mayor of

Vancouver, a teacher of twenty years' experience, has been appointed as teacher and manual trainer in the Wailuku school. He just arrived from the Coast and the department

of public instruction sent him immediately to Wailuku.

W. Harold Rice of Paia has just received his new six-cylinder White automobile. It is easily the finest car that ever came to Maui. It is electric lighted, has a self-starting device and is a splendidly smooth running machine.

Rev. Frank S. Scudder, whose visits to Maui in the interests of the Japanese work of the Hawaiian board are always a pleasure to the people for whom he works and his many warm Maui friends, has been putting in a few days' work here this past week. Mr. Scudder is a very faithful evangelist of the board, a tremendous worker and one of the most delightful visitors that Maui receives from Honolulu.

INTER-ISLAND

(Continued from page 10.)

It has been only waiting the psychological moment."

Olaa.

The Eight Miles station was burglarized late Sunday night. Nothing is missing but the railway tickets, which were found scattered by the railroad crossing. The two burglars were caught on Wednesday.

Mrs. O. L. Holland is soon expected home. There will be some more tennis games then.

A dance was given by the Young Ladies' Association at the Portuguese Club House of Keana. The fair dancers were under the instructions of Judge F. Ferry.

The Hilo High School has formed two literary societies.

Pohakupuka.

On March 10, the Japanese School had a grand time. Speeches, singing, declamations, essays, etc., were the order of the day. Mr. S. Tanabe and Mr. Kasama were orators.

After the exercises were over, premiums were distributed among the school children. A photo was taken of the school children and their teachers, among whom Mr. Amos J. Ignacio was invited to a place.

Mr. Amos J. Ignacio, of the Pohakupuka school, received close to a hundred trees, which were planted in the school yard, and some in tubs, to decorate the school rooms. Mr. Ignacio's idea is to have a certain portion of the school lot planted in trees and preserve the same as a forest, which will supply lessons in nature, as well as shade for the children,

when too warm to play out in the yard.

Papaaloa.

Fences have been put in the dangerous places along the government road from Papaaloa to Laupahoehoe, as the result of the petition sent in by the residents of Laupahoehoe and Papaaloa, some time ago, to the Board of Supervisors.

Talk about rough roads from Pohakupuka to Oohala! One is well shaken up by the time he arrives at either Laupahoehoe, Oohala or Papaaloa, by so many holes in the road.

A little repairing has been done, but to have a luna for two or three men is more than one can swallow, and that is the way the money goes; pay four men and only get the work of three. Soon the time will come when each man will have a luna, so that they can "chew the rag" all day, and do less work for their \$1.50 per day. Still they complain that \$1.50 is not enough.

Paauhau.

Last week Mrs. J. M. Ross and Mrs. Wm. Ross, of Hakalau, had a very unpleasant experience when coming from Waimoe to Honokaa. The automobile in which they were traveling stuck in a mudhole on the boulevard between the two places, and a team of mules had to be sent the next day to pull it up.

★ ★ ★ ★ ★
 ★ HAWAII'S SNOWCAPPED ★
 ★ PEAKS. ★
 ★ ★ ★ ★ ★

(In March, 1912, for the first time in the memory of man, the mountains back of Kupoo, Island of Molokai, Hawaii, were seen white with snow, after an unprecedented cold wave.)

Half a score,
 And almost four
 Thousand feet higher,
 Our Mauna Kea,
 Much in the way a
 Spinster should retire
 Nightgowned from November;
 Nightcapped till September:
 While makai
 Haulalai.
 Ten thousand high;
 And Mauna Loa,
 Three and six more,
 Off from our shores
 Gleam white in December,
 As tourists remember.
 Haleakala's ordinary
 Virgin February
 The sun helioscopes

From eight-thousand feet alopes.
 And now Pukoo
 Apes this fashion, also—
 Five-thousand feet sky-ey,
 On bleak Molokai,
 In heart of Hawaii,
 Joins the caravanary
 Of white millinery,
 Whose five stylish maids
 The Crossroads parade;
 Waile Pacific, enrapt
 By these sirens snowcapped.
 (On one hemisphere mapped:
 By no other sea lapped.)
 Below them Hawaii,
 Molokai
 And Maui,
 In tropic sun's sheen.
 A Paradise green—
 Yet a paradox, too,
 With five snow peaks in view.

—The Kohala Midget.

THE TEST OF TIME

is a sure test by which to gauge the efficacy of any remedy for human ailments, whether advertised or ethically prescribed by a physician.

A medicine that has stood the test of time is Lydia E. Pinkham's Vegetable Compound. Its intrinsic merit has been proven by the fact that for nearly forty years it has been relieving womankind from suffering and has constantly grown in popularity. The demand for it today is larger than that of any similar remedy in the world.

This famous remedy for female ills has proved to be of incalculable value to hundreds of thousands of American women.

Just put yourself in your enemy's place and you will stop abusing him.
